Title: Save the World

**Caption**

Scientists say that we can save about nine tenths of electricity by using fans instead of air conditioners. Although I'm just a primary school student, I can do that – I only turn on the fan during the summer. If everyone makes a small effort, we can save the world!

Title: Save the World

**Caption**

Our planet is sick and we need to help it. When we feel hot, we can use fans instead of air conditioners. We should take a shower instead of having a bath because it will save energy and water. If we can do that, we are helping.

Title: Help the Needy

**Caption**

Families from some rural villages on the mainland are poor. Although the adults work hard – some children need to work too, they don't make enough to make ends meet. We are lucky because we live in Hong Kong. So let us help the children there through donation.

Title: Help the Elderly

**Caption**

Helping the elderly do their household chores, such as cleaning windows and doing the dishes, is a good thing to do. Do you know why? Because most of them are too weak to do those daily tasks. And helping shows our care and love.

Title: Donation of Food or Clothes

**Caption**

Every day, people throw away tons of food and clothes, but some of them are still in good condition. We can donate them to the needy. The poor don't have enough to eat and wear. Giving leftover food and well-worn clothes are meaningful and helpful to our community and environment.

Title: Help the Needy

**Caption**

There are lots of poor people in different parts of the world. Many young children have to work long hours but they don't have enough food to eat. They have a dream. They want to go to school. Please donate some money to help the poor children. We need you.
